Share your Covid Story

User oriented platform for COVID patients to share and propagate their story

27.10.2020

HRITIK DUBEY   **19BIT0150**

MAYANK KUMAR   **19BIT0190**

Overview

The core aim of the project is to provide a safe and collaborative platform, where COVID survivors share the pain and struggles they had to go through during the ordeal. To provide people with such a platform which is safe for people to share their stories we have incorporated ML Technologies on our blogging sites. Which detects toxicity from the blog posts and deletes those posts, providing a safer platform for the community. Any posts having toxicity levels beyond a certain threshold will be removed.

Goals

1. To provide a user friendly interface for writing Blogs & share experiences,

2. To provide updates regarding the Total covid-19 cases with Active cases and Fatalities.

3. To provide a safe platform for people to connect without any presence of inappropriate content in Blog.

4. To raise awareness among people to manage their health & take right measures for quick recovery from Covid-19.

5. To reduce mental stress among people due to coronavirus.
